Q - Prowling Projectile

Yuumi fires a missile that deals magic damage to the first enemy hit. If the missile is in flight long enough, it deals bonus damage and slows enemies.

While Attached, Yuumi fires a missile from her ally's position and can direct the missile's flight path with her mouse.

W - You and Me!

Passive: While Attached, Yuumi and her ally gain a percent of each other's AD or AP converted to Adaptive Force.

Active: Yuumi starts with a point in her W. She dashes to an ally champion and attaches to them. While Attached, she follows her partner's movement and is untargetable by everything except tower damage. Yuumi's abilities fire from her ally's location, and she can't attack enemies. She can Unattach after a cooldown or Attach to another teammate with no cooldown.
